About NCKU

National Cheng Kung University (NCKU), located in Taiwan’s ancient and cultural capital — Tainan, is one of Taiwan’s top research intensive universities and a leader in promoting industry-academia cooperation. According to the QS World University Rankings 2017, NCKU has ranked the 222nd in the world with 39th in Asia. NCKU also ranks the 51st worldwide in the field of engineering as well.

NCKU encourages students to practice “Pursuit of truth through exhaustive reasoning.” Therefore, NCKU not only has the solid foundation in chemistry, mathematics, physics, and optoelectronics and plasma research, but also is a pioneer of precision machinery advanced materials, naval mechatronics, and even aeronautics and astronautics in Taiwan. Advanced research of software, systems and service also make NCKU a leadership of electrical engineering and computer science in the country.

With its diversity, influence and vision, students in NCKU can exploit its abundant resources and fully explore their interests and creativity in various academic fields, further connecting themselves to the society and the world.
2018 NCKU International Summer School scheduled from August 2 - August 17 features i Circular Economy (iCE, where i means intelligent, international, industrial, integrated and interactive.) as the theme and offers innovative and inspiring core courses to both undergraduate and postgraduate.

As iCE is the revolutionary courses and education programs in the leading-edge knowledge of Circular Economy at NCKU. All students need to pay is the mandatory application fee (including administration and insurance) for USD 210.

The Chinese language and cultural classes, which have always been of great interest to students worldwide, are also available at an affordable price. The school will hold an abundance of extra-curricular activities to foster cross-cultural and lifelong friendship during the program.

Ready to learn more about the educational environment, people, and culture around Taiwan? Apply Now!
A. Circular Economy Class (2 Credits, taught in English)

CE class includes wide-ranging topics of lectures such as energy, water and biomaterial. It will be taught by top professors and experts. Aiming at giving students basic concepts of sustainable thinking from interdisciplinary lectures, CE class demonstrates a clever and systematic use of technology on business and daily life. In addition to teaching theory in class, we provide company visits and hands-on activities for students to work in practice.
B. Chinese and Culture Class (1 Credit)(Optional)

To immerse students in a unique cultural atmosphere, we arrange Chinese language class and cultural classes, including Chinese Opera class and Zhuanke (seal carving) class. Students will enjoy learning to read and speak Chinese, and even experiencing the Chinese Opera’s costumes and make-up!

C. City Tours (Optional)

On weekends, city tours will be arranged for students who want to opt for an unforgettable travel experience around the areas in southern Taiwan. Tour schedules will be announced on the website.
