

WHERE DO WE COME FROM?

September 2020, impelled by the pandemic, the University of Deusto launched the [INTERNATIONAL VIRTUAL CAMPUS](#) as an alternative to traditional mobility. The experience has been a success and up to now we have had more than **300 virtual and 500 hybrid** (face-to-face students with at least one virtual course) students, with a **90% of satisfaction rate**.

[WHY PARTICIPATE IN THIS EXPERIENCE?](#)

Because we offer a program that **enriches and diversifies the experience** of students and have a **positive impact on students**. It **accommodates the different needs and situations of a diverse student** population, creating **new learning opportunities** for people who could not participate in a mobility program before. It allows for [an internationalization at home experience](#) through interaction with international students and staff. Students from different backgrounds, including those with fewer opportunities. This virtual international experience can act as **a first step towards other types of mobility experiences** and may prepare the students for the physical mobility. It translates **into better upskilling or reskilling opportunities** and development **of new types of competences**. It is a unique opportunity for developing transversal and discipline specific skills.

WHERE ARE WE HEADING?

We truly believe that this opportunity must be a **sustainable and inclusive** program for people who are unable or unwilling to participate in a regular mobility program, in particular students from **diverse backgrounds**, including those with fewer opportunities.

[WHAT IS THE FORMAT?](#)

A **multidisciplinary offer on courses on hot topics in both English and Spanish** and specifically designed for international students. All virtual courses can be followed from the home country and **without any restrictions with regards to the student's home field of study**. All **live sessions** (synchronous) will be held in a schedule inclusive with all time zones. Attendance to these sessions is **mandatory** in order to pass the courses. Distance learning will be complemented with the [Virtual Buddy Program](#).
