	North Carolina State University				
	Northern Arizona University				
	Pitzer College				
	Texas Tech. Uni.				
	University of Georgia				
	University of Arizona				
	University of Wisconsin-Platteville				

The partner list and the total budget for maximum weeks are subject to change. Depending on budget availability from other sort of mobility types, total budget for maximum weeks may increase.

Please note that you will be able to visit ONLY ONE of the institutions listed above, thus please avoid block emails to all partner institutions listed here. In order for us to maintain and sustain our cooperations with partner institutions, we kindly ask you to contact ONLY a small number of the universities that you have serious interest in.

If the university that you would like to visit is not in the attached list, please contact METU ICM, who can assist you in the process of building a new partnership with that university. Your contacts may facilitate the partnership building process. The new partnership agreement must be signed before the application deadline. Moreover, please be aware that once the agreement has been signed, it will be open to the applications coming from all METU faculty/institute members.

*According to ICM program rules, duration of teaching mobility ranges from 5 days to 2 months (max). The number in this column indicates the maximum number of weeks available in the related country budget. For example, it is possible that one applicant visits Russia for more than 1 week, only if there is no other application.

The travel support is a fixed amount, independent of the price of plane tickets. Even if the travel days exceed 2 days, it is not possible for beneficiaries to receive daily grants for more than 2 days of travel. Except travel days, no daily grant is paid for weekends.

According to the decision of University Exchange Programs Commission made on 3 November 2016, at least 1 quota will be allocated to the School of Foreign Languages. Additional quotas allocated to the School of Foreign Languages will be determined in accordance with the country budget available and the number of applications received from Faculties and Institutes.
