WELCOME TO WEIMAR!

Bauhaus-Universität
Weimar

AROUND 25%
INTERNATIONAL STUDENTS

At the Bauhaus-Universität Weimar you will find an atmosphere of collaboration between artists, designers, engineers, and media studies scholars. Our students benefit from the close student-teacher ratio and an atmosphere that allows you to develop and experiment with your own ideas.

HOME OF ART AND CULTURE

You will find the Bauhaus-Universität Weimar right in the middle of Germany, in the Federal State of Thuringia. Today Weimar is a lively city of about 65.000 inhabitants with a city centre that is no more than 10 minutes by foot away from most things. Whether you're an art and culture lover, night owl or gourmet - Weimar offers much more than Goethe, Schiller, and the Bauhaus.

SAFE, SECURE AND EQUAL

CHOOSE YOUR FAVOURITE COURSE!

Programme and Topics

Expand and deepen your specialised knowledge and language skills. Take advantage of the special learning environment and acquire intercultural competence alongside international participants.

LARGE VARIETY OF ONLINE,
BLENDED AND IN-CLASS COURSES

Choose your favourite two-week specialised course in the field of Architecture & Urbanism, Art & Design, Engineering & Environment, or Culture & Media.

Ready for a foreign language? Beginners or advanced learners - our intensive language courses are open for everyone.

Find all our courses on www.uni-weimar.de/summerschool

SCHOLARSHIPS AVAILABLE

YOUR WAY TO BAUHAUS SUMMER SCHOOL!

Application and Fees

Registration opens in January. You can select your courses and book accommodation and field trips online.

Deadline for language courses is 15 June. Deadline for specialised courses is 1 May. Please note that you have to apply for courses sending application documents and a letter of motivation as outlined per course.

Further information regarding fees and payments can be found on our website www.uni-weimar.de/summerschool

APPLICATIONS ARE OPEN
FROM JANUARY 2022

SPECIALISED COURSES TIL: 1 MAY
LANGUAGE COURSES TIL: 15 JUNE

BE PART OF IT!

Bauhaus Summer School:
Learn. Connect. Discover.

The Bauhaus Summer School is the international summer programme of the Bauhaus-Universität Weimar. Each year in August we welcome prospective students, undergraduates as well as graduate students from all over the world. Be one of more than 300 aspiring people and broaden your academic and cultural horizon in one of our summer courses.

Benefit from our wide cultural accompanying programme: take a trip to the cities of Berlin or Dessau, make new friends at the gaming or film nights or explore nature during a bike tour.

Our friendly, young Summer School team assists you with your accommodation, welcomes you at your arrival and helps you with any organisational issues during your stay.

1

ARCHITECTURE
& URBANISM

POST (COVID) CITY - BODIES IN PUBLIC SPACE(S) IN TIMES OF CRISIS

How does COVID-19 affect social proximity in the city? Expand your critical views on architectures of pandemic(s). Question politics of bodies in urban space in time of crises. Analyze the role of public space in absence of private „safe“ spaces.

in-class course
20.08.2022 – 03.09.2022

2

ARCHITECTURE
& URBANISM

THE COLORED GLAZE FOR ARCHITECTURAL CERAMICS

Discover the creative potential of architectural ceramics! This course will give you an exciting insight into it's historical and current use in architectural practice. In a series of hands-on experiments, you will get the opportunity to explore the great creative design potential of coloured glazes yourself!

in-class course
20.08.2022 – 03.09.2022

3

ART & DESIGN

RAILWAY STORIES - TRANSFORM ACTUAL TRAIN JOURNEYS INTO YOUR OWN ART

Discover the creative potential of train travel! We examine, analyse and discuss research practices of train travel – both in theory and in practice. The focus will be on everyday journeys as well as on working together to design a practical and theoretical framework for developing our own (art) projects.

blended course
Part I (online): 15.08.2022 – 19.08.2022
Part II (in Weimar): 26.08.2022 – 03.09.2022

4

ART & DESIGN

WHAT IS COLOUR?

Enlarge your personal palettes, knowledge and fabrication of colour. Let Goethe and former Bauhaus' enthusiasts guide your contemporary mastering of how to employ and articulate colour. Revitalising your perception and use of hue reliant upon colour's properties, form and application. Theoretical bases underpin this platform to play with colour. The course travels from hands-on experimentation to identifying hue understanding.

online course
18.07.2022 – 31.07.2022

5

ART & DESIGN

LIGHT: A TOOL FOR ARTISTIC WORK IN TWO AND THREE DIMENSIONS

Discover the aesthetic and communicative potential of light! Which properties of light can we influence and how? What potential do these properties have in terms of a communicative as well as aesthetic effect? And how can they be used for (artistic) work? We will discuss and answer these and many other questions about light.

blended course
Part I (online): 15.08.2022 – 19.08.2022
Part II (in Weimar): 26.08.2022 – 03.09.2022

6

ART & DESIGN

FIRST LIGHT

How did early studies of light and optics influence the advancement of industrial economies, art, and human perceptions of self, time and space? First Light is a tactile investigation of the principles of Photography's scientific and creative foundations, providing theoretical perspectives and applied strategies for contemporary artists and designers.

in-class course
30.07.2022 – 13.08.2022

7

ART & DESIGN

THINGS THINGS THINGS

Our world is full of things: they are used, consumed, and thrown away, they are collected, arranged, presented and photographed. Explore the power of things and their design and develop alternative design possibilities. We will take a closer look at the things that surround us. You will get to know different, innovative methods to discover new aspects of familiar things.

blended course
Part I (online): 15.08.2022 – 19.08.2022
Part II (in Weimar): 26.08.2022 – 03.09.2022

8

ART & DESIGN

DESIGN BASICS: PRINCIPLES AND ELEMENTS IN THE BAUHAUS CONTEXT

Discover the language of design! This course teaches you the central basics to use this tool effectively. You will learn – in theory and practice – about the characteristics of strong design and how you can apply this knowledge in your own individual work. In experimental exercises and typographic studies, you will have the opportunity to put theoretical knowledge directly into practice.

online course
18.07.2022 – 31.07.2022

9

CULTURE
& MEDIA

DEEP DIVE DESIGN THINKING

Design innovative, user-centred products with creative techniques, LoFo prototypes, teamwork and lots of fun! Design Thinking is a process for creating elegant user-centred solutions in multidisciplinary teams and a mindset – another way of tackling challenges: empathetic and hands-on. Implemented in daily work, the problem-solving potential unfolds into a living innovation culture. Don't just talk, do it!

blended course
Part I (online): 15.08.2022 – 19.08.2022
Part II (in Weimar): 26.08.2022 – 03.09.2022

11

LANGUAGE

GERMAN INTENSIVE COURSE

Learn German in one of the most exciting cultural cities in Germany and Europe! Whether you are a beginner, advanced or almost native speaker – we offer the right language level for everyone. You will effectively learn the many facets of the German language together with participants from all over the world. Join us on a linguistic and cultural journey of discovery!

blended course
Part I (online): 15.08.2022 & 19.08.2022
Part II (in Weimar): 20.08.2022 – 03.09.2022

12

LANGUAGE

ENGLISH

You want to go to get prepared for a degree programme or internship abroad? In this course you will effectively improve your English skills in small groups and with close professional support. We offer you challenging and lively language classes with native speaking teachers.

in-class course
20.08.2022 – 03.09.2022

10

ENGINEERING
& ENVIRONMENT

FORECAST ENGINEERING

Virtualization, visualization and validation of urban and structural building responses. You will focus on the proficient handling of complex engineering tasks, using modern tools and finding their scientific position in existing interdisciplinary projects. Some of the core aims of this course: A comprehensive grasp of special topics in civil engineering as well as the development of solutions.

in-class course
20.08.2022 – 03.09.2022
