Health & Safety

a. Personal Safety

Students choosing to study in Turkey will find people friendly and helpful towards visitors. It is a safe country; students can travel safely within most parts of Turkey. Though travel is safe, some common sense precautions should be taken. Hitchhiking is not always safe. Students should not carry large sums of money and should keep passports in a safe place in case their handbags might be stolen. Students are required to get a residence permit that should be carried at all times.

Students are urged to take precautions about personal belongings as they would at home. Students staying in the dormitories have a place where they can lock valuables including passports. They should not carry about large sums of money.

The main safety concern is traffic. Turkey has a high rate of deaths through traffic accidents. Students must take more precautions in crossing streets and care is necessary even when pedestrians have the right-of-way.

Transportation within cities is adequate and inexpensive. Inter-city bus service is good, safe and also relatively inexpensive. However, we advise students to use bus companies with better traffic records.

b. Political Issues

Being the major cities of Turkey, demonstrations by various groups may be held periodically in Ankara and Istanbul, but always in specific locations. International students are not advised to get involved in such demonstrations and in fact should avoid these locations during time of demonstrations.

c. Health Issues

As all international students coming to Turkey travel outside Ankara and Istanbul during their stay, we advise them to have standard inoculations required of all university students. Students are advised to drink bottled water particularly outside Ankara. Restaurants are graded in Turkey according to the type of service and eating space. Eating in restaurants of all classes is generally safe as long as freshly cooked dishes are eaten. If you have any health problem relating food, you are advised to visit METU's Medical Center. Students can contact ICO and ISO office staff in case of serious health problems or case of emergency.

Over exposure to sun and dehydration should be guarded against in the summer particularly in the Southern regions of Turkey. Wearing hats is advised when touring during the summer.

Medical service in Ankara is adequate. METU has a fully staffed Medical Center on campus that provides for emergency needs as well as for minor health problems. Students are given emergency telephone numbers to use in case of illness or accidents while outside Ankara.

Using Medical Services at METU

International students can apply to Medical Center for their health problems. Within the frame of facilities and legislation, examination and treatment of students are conducted in the center.

In situations requiring further examination and treatment, the student may be directed to another hospital. There are many state and private hospitals around METU and all around the city.

- The medical doctors at the center consult their patients from 9:00 to 12:00 and from 13:30 to 16:00 p.m, Monday to Friday.
- For other services, hours may change.
- For some services, such as psychological guidance, you should get an appointment.
- Emergency service is available 24 hours a day.

Procedures to be followed at the Medical Center

1. In the first step, you should take queue number from one of the kiosks located on the ground floor of the Center with your Student ID Card and apply to Patient Reception desk
2. A small ticket will be presented to you indicating the name of the doctor and your waiting line number at the Patient Reception desk.
3. You can enter the doctor's office when it is your turn
4. The doctor may require additional tests, in such situation you may apply to Laboratory or Radiology Unit inside the Medical Center.
5. The doctor needs your results for the treatment. If you get the results on the same day, you should go to your doctor without any extra procedure. However, if you get the results a few days later, then you need to apply to the desk and make the officer send your name to doctor via EMR software.
6. If a prescription is prepared, it will be printed out; signed and handed to you by the doctor. You should take "End Process (Sonlandırma)" number from kiosk to get your prescription stamped and obtain other necessary print outs.

Information about medical reports:

Students may miss their classes, exams etc. due to health problems. In order to take make up exams or to finish their incomplete tasks, they should get a medical report. For this medical report to be valid, it must be approved by the Medical Center.

Medical reports obtained from private doctors' offices are not accepted. If students get medical reports from other medical facilities at weekends or in emergency cases when on holiday, they

must have their reports approved within three workdays. Otherwise reports will be invalid. Apart from official holidays and the periods that the university is closed, medical reports obtained from medical facilities outside Ankara are not approved.

d. Natural Disasters

A major earthquake fault runs east to west through Turkey and smaller faults are found in the Southwest and Southern parts. While earthquakes are not expected in central Ankara, tremors can be felt. Since the major earthquake in the Istanbul region in August 1999, the disaster management procedures in Turkey have improved. Flooding may occur with heavy rains in some parts of Turkey and can be dangerous for travelers. However, there is always ample warning and travel restrictions to such areas are enforced at such times.

e. Drugs/Alcohol

Students are advised that possession/use of drugs is strictly prohibited by law in Turkey.

The drinking age in Turkey is 18. Students not used to drinking should be aware of this rule. It is against METU regulations to drink in campus dormitories and on campus.

For degree seeking international students, being a member of METU International Students Association (MISA) is recommended throughout their stay in Turkey.

Ankara has a continental climate with cold snowy winters due to its altitude and inland location, and hot, dry summers. Spring and autumn are generally mild, but during both seasons sudden hot and cold spells frequently occur in the region. Rainfall occurs mostly during the spring and autumn. Because of Ankara's high altitude and its dry summers, night temperatures in summer months are not so high. Ankara's annual average precipitation is fairly low at 415 mm (16 in), nevertheless has rains fall during the whole year. The monthly mean temperature ranges from 23.6 °C in July to 1°C in January, with an annual mean of 11.7 °C. On the southern coast, the climate is the same. Since the climate of the Anatolian Plateau is steppe, rainfall is low but snow is high, and the difference in day and night temperatures is great. On the other hand, the Black Sea climate is wet, warm and humid (summer 23 oC, 73.4 oF and winter 7 oC, 44.6 oF). About ten minutes of walking distance from the station, by the amusement park named as ‘Gençlik Parkı’, there is a tube station which has services to a number of central locations in the city. Since 2014, High-Speed Train travels between Ankara-İstanbul (Pendik) and it takes 3,5 hours. For more information, you can visit Turkish State Railways webpage: <http://www.tcdd.gov.tr/> .

By Bus

Most of the bus companies have international services to Istanbul. After your arrival to Istanbul, you can easily find a direct bus to Ankara. Bus trip from Istanbul to Ankara takes around five hours and one way fare is about 75 TL. The buses terminate at the bus station named AŞTİ. AŞTİ is connected to the Kızılay Square and a number of other central locations by a tube line. In order to get to METU you can take the Ulus-ODTÜ mini bus called ‘Dolmuş’ or EGO bus (number 133) in front of the bus terminal. Taking a cab is also another option from AŞTİ to ODTÜ, which costs approximately 25 TL.
