

ORTA DOĞU TEKNİK ÜNİVERSİTESİ
MIDDLE EAST TECHNICAL UNIVERSITY

Mission

Attaining excellence in research, education and public service for society, humanity and nature, in an environment nurturing creative and critical thinking, innovation, leadership, and universal values.

Vision

A leading international university that transforms its region and the world.

International Mandate and Vision

Türkiye's
premier state research
university

Established with an
international mandate
and an international vision

English as the

HR EXCELLENCE IN RESEARCH

METU is the first Turkish university to receive HR Logo, that is an important symbol for the international visibility and reliability of universities.

682 faculty members

2446 administrative staff

378 professors

177 associate professors

127 assistant professors

344 lecturers and instructors

144 specialists

72 research assistants under article 35 (including OYP)

736 research assistants

31 international faculty members

More than **800 Bilateral Cooperation Agreements** with different institutions worldwide
(Erasmus, Mevlana, Bilateral Cooperation Protocols)

Each year, we send approximately **550 students** and **over 150 teaching/ administrative staff** abroad, while hosting around **250 incoming students** and **100 teaching/administrative staff**
(an annual average of 1,000 participants in our mobility programs)

Times Higher Education (THE) World University Rankings

In the THE 2026 subject rankings, METU ranked first in Türkiye in 7 out of the 8 subject areas evaluated, and in the field of **Education**, it became the **only Turkish university to enter the world's top 100, ranking 93rd globally.**

METU is ranked in the **351–400 band** in the THE World University Rankings 2026.

It is **1st among public universities** in Türkiye, and placed **189th for Research Environment, 191st for Teaching, and 205th for Industry.**

With its strong performance in research, teaching and industry, it ranks in **the top 18% worldwide.**

ODTÜ-TEKNOKENT

The first Technopark in Türkiye

One of the most successful Technopark

Ranked first for seven times (2011 – 2024) by the Ministry of Industry and Technology

~400 technology companies, with over 70% founded within ODTÜ TEKNOKENT

170,000 m² of total indoor space across 3 campuses

10,000+ research personnel

USD 550 million in annual technology exports as of 2024

METU Moon Rover Project (CHERI Mission)

- 1 Partnership Formation
Collaboration with Zhejiang University & STAR Vision established
- 2 Mission Integration
Part of China's Chang'e-8 lunar program
- 3 Target Deployment
Moon's South Pole mission in 2028

This groundbreaking project represents a joint effort between METU Aerospace Engineering and ROMER Faculty, demonstrating our excellence in robotics, systems integration, and remote sensing technologies.

The CHERI mission will deploy micro-rovers to explore the Moon's South Pole, marking a historic achievement in international space collaboration and Turkish aerospace capabilities.

Research Potential: Currently Ongoing Projects

DEEP TRACE PROJECT

Marine expeditions continue as part of the ERC-funded DeepTrace project, which explores extreme habitats in the seas of Türkiye and the world.

1

Unveiling Earth's Hidden Metal Highways

DeepTrace investigates how life-supporting metals move and react across deep-sea interfaces

2

Nanoparticles as Cosmic Clues

Turns metal nanoparticles into tracers of life's chemistry — *a new window into life detection beyond Earth*

3

From Black Sea to Ocean Worlds:

Connects Earth's deep-sea ecosystems with the icy oceans of distant moons to explore habitability

Deep Pacific

GO SPACE PROJECT

GO Space, funded by ERC, stands as a pioneer goal-oriented communication systems for space networks, collaborating with experts to refine proposed communication strategies and address challenges in space communication.

1

Smarter Space Communication

GO SPACE builds next-generation communication systems to keep spacecraft and satellites connected

2

Goal-Based Data Flow

Sends data with purpose — prioritizing only what's needed for each task to ensure reliable and efficient communication in space

3

From Earth to Deep Space

Creates smart, energy-saving networks for future space and 6G systems

Together we can
change the world.

WE CAN CHANGE
the world!
universe
