

Our partner this week is **University of Helsinki**. Let's take a closer look at our partner!

We have an agreement with the University of Helsinki covering 3 departments: Geological Engineering, Computer Engineering and Data Sciences. Students studying in these departments, both at undergraduate and master level, can carry out their mobility at the University of Helsinki.

Why Choose University of Helsinki?

- A large selection of courses taught in English
- Affordable, healthy student lunches for less than 3 Euro
- Great public transport system (affordable for students)
- For students with grants; Finland is one of the countries in the high grant group

FINLAND IN FACTS

FINLAND.FI

i SAFETY
